CHICAGO

“

OUR TEAM PROVIDES UNPARALLELED DESIGN EXPERTISE AND A COMMITMENT TO PERFECTION.”

CHRISTY FORAN,
OWNER

Meaningful Mentor

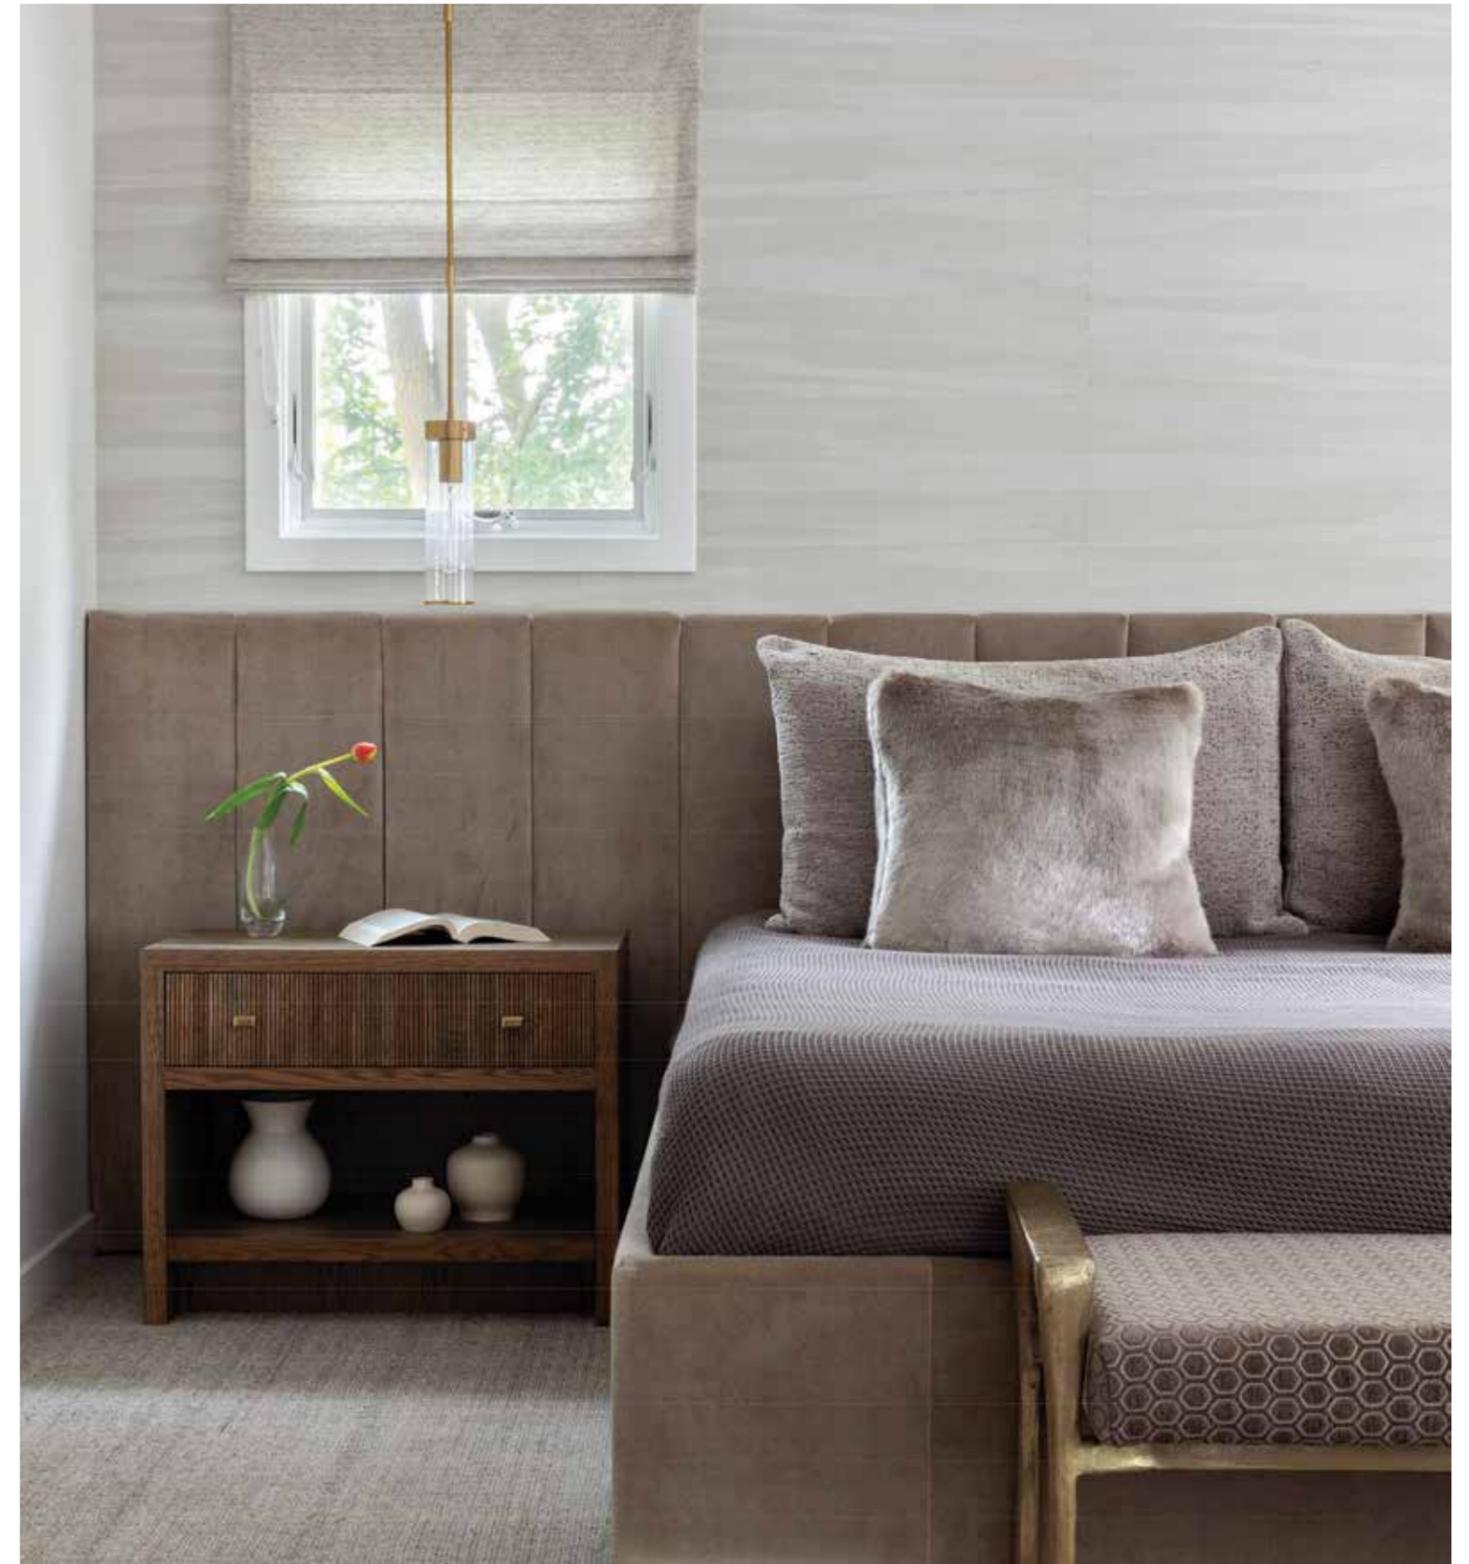

Foran credits her time at Holly Hunt as both foundational and inspirational. She explains: “When working there I had insight into a brand with impeccable taste and also observed a fellow female designer fearlessly attack the design world with confidence and perseverance. Hunt found new ways to inspire and grow and I have always admired her business savvy, high standards and strong work ethic. It was a fabulous place to begin my design journey.”

Measure Of Success

The CFD team measures their success in the return of past clients. Foran loves it when someone comes back for a refresh of a new house or vacation home. “At any given time we have several return clients—it’s the ultimate compliment!”

Far left A perfect mix of stone, natural wood and warm tones combines in the kitchen. Oversized pendants bring balance to the large space. **Top right** This dining room’s expansive custom oak table is ready for dinner parties, while the wallpapered ceiling and neutral tones bring in the warmth. You’ll be begging your guests to leave. **Bottom right** Layered in comfort and style, this room brings elegance, design and form together to create the ideal gathering spot.

The best thing an interior designer can hear when a project is complete is that their client loves their house and feels pampered in their own space. (It’s the feeling one gets when the posh hotel bathroom is no longer nicer than their own.) For Christy Foran Design, that’s always the goal. Founder and Owner Foran says, “My ultimate goal for CFD is a very long line of satisfied clients who simply love coming home.” She began her design career at the Holly Hunt showroom in Chicago before training with another interior designer and ultimately launching her namesake venture in 2006. Today, the company is a full-service interior design firm specializing in innovative solutions that reveal the personality and vision of their clients. Foran adds: “With a focus on classic and contemporary spaces, CFD transforms clients’ homes into functional and comfortable environments that are uniquely their own.”
